

MARIO
EDUCATION

MEDIA KIT

WHO ARE WE?

MARIO Education is a K-12 ed-tech company whose mission is to develop lifelong, self-directed learners by applying the most effective, current, research-supported, and evidence-based discoveries in the science of learning and well-being. MARIO is transforming the way students learn one conversation at a time through their proprietary software, MARIO for Me, and their world-class professional development library.

Schools that employ MARIO can do so across multiple contexts and with diverse priorities: as a personalized advisory tool, as a key school safety and counseling tool, and as a high-impact, evidence-based special education or MTSS intervention.
